

We would like to invite you to participate in the **online** European Conference

“Health and education outcomes of children across Europe with congenital anomalies”

7-8 April, 2022

The conference welcomes healthcare professionals, academic researchers, educators, leaders in healthcare and education, students, parents and carers, and any others who work or are interested in the field of congenital anomalies.

Participation in the conference is free.

Deadline for abstract submission (for poster presentation): February 15

The Conference aims to disseminate findings from the EUROlinkCAT project (www.eurolinkcat.eu) and to agree a set of recommendations for the medical care and education of children with congenital anomalies.

The Conference will cover the following topics:

- Epidemiology
- Prenatal diagnosis
- Survival and morbidity outcomes
- Medical care
- Schooling and education outcomes
- The experiences of parents and carers
- The role of patient and parent associations

In addition to the European EUROlinkCAT Conference, we invite you for two satellite online conferences (in Polish) on Down syndrome and Spina bifida.

We invite you to conference website: eurolinkcat2022.bok-ump.pl

On behalf of the Local Organizing Committee:

Professor Anna Latos-Bieleńska
